WELDING AND FABRICATION

Working within a fast-paced and progressive industry, we understand the need to stay up to date and ensure our staff are on the cutting edge of the newest equipment and training available. We use the latest 3D CAD programs to design, develop and engineer once off or multiple products as required by clients. Maverick Welding also use and recommend Miller and WIA products – a leading manufacturer of arc welding and cutting equipment. Covering minor to large-scale fabrication repairs and rebuilds, field service, maintenance and labour hire are all part of Maverick Welding Group's diverse offering, backed up by our experienced on-site and project based staff. Our staff are extensively experienced but not limited to:

- Fabricating aluminium, stainless steel, mild steel
- Refurbishments and rebuilds on a wide variety of trays, loader, excavator, dipper and dragline buckets
- Fabricating structural beams and columns
- Onsite repair work

COMMUNITY SUPPORT

Maverick Welding Group place a high level of importance on giving back to the local community, as well as the communities of its Clients. Maverick Welding has supported the following community organisations:

Keeping it local
"The Local Buying Program has given our business great exposure over the past few months, and we've noticed a huge increase in workload in that time. We're now working with even more businesses and mining companies in the region, as well as interstate."
- Graham Becker from Maverick Welding, Nebo.

Maverick Welding
Our **Local Buying Program** is about building relationships with small businesses in our region and putting money back into our local economy.

\$58 million to
local businesses
last year.
